

TB260E

Battery-electric excavator

Operating weight	6.500 kg
Torque	400 Nm
Max. rpm	2.400 rpm
Runtime	7–8 hours with 1 hour recharging over lunch
Battery cell type	Li-ion 21700
Battery voltage	364 V
Battery capacity	126 kWh gross / 118 kWh net
Battery lifespan	8.000 – 10.000 operating hours up to 80% SOC
Charging power	DC: 90kW / AC: 22 kW (optional: 44 kW)
Charging port	CCS Combo Type 2 and CEE32 (optional: CEE63)
Charging time (20-80%)	<1h DC / <6h CEE32 (optional: < 3h CEE63)
Heating system	Bidirectional heat pump
Heating power	Up to 10 kW
Area of application	In buildings and underground, emission-free construction sites, diesel-free zones
Further advantages	Maintenance-free battery and motor, remote system for fast service, cable operation, Takeuchi hydraulic system, intuitive control display
